

## **AGILITY DRILLS**

The goal of the Agility Drills class is to continue the progression of skills learned in Advanced Agility to perform more complex sequences between the dog/handler team on American Kennel Club (AKC) agility equipment, with special emphasis placed on dog safety. Dog/handler teams will learn advanced handling techniques in this class. Two mini drills-based courses will be performed which will be incorporated into one large competition level course. Focus will be on rewarding the proper performance of all obstacles and execution of advanced handling skills. mphasis will also be placed on handling strategy.

Prerequisites for enrollment in Agility Drills class are applicable to the dog seeking enrollment in the class:

The dog and handler must have:

1. Successfully completed TCKC's Advanced Agility Class;

OR

The dog and handler must be:

2. Evaluated by the Agility Coordinator and/or Director of Training to determine if the participant and dog can adequately perform those skills taught in TCKC's Advanced agility class.
